

COVID-19 Surveillance to Enable Early Detection and Response to Outbreaks: National Healthcare Safety Network (NHSN) Mandatory Data Collection

4:00 – 5:00 PM ET

August 6, 2020

Introduction and Welcome

Lisa Sullivan, MSN, RN

Acting Director

Division of Community and Population Health

iQuality Improvement & Innovation Group

Centers for Medicare & Medicaid Services (CMS)

Meet Your Speaker

Linda Behan, BSN, RN, CIC
Senior Director, Infection Prevention
and Control
Genesis HealthCare

Where to Access Current Guidance

- **CMS sends new memorandums to center leadership**
- **Coronavirus (COVID-19) Stakeholder Calls**
 - **Nursing Homes Call (twice a month on Wednesday at 4:30 PM Eastern)**
 - Wednesday, August 12th at 4:30 – 5:00 PM Eastern
 - **Toll Free Attendee Dial-In: 833-614-0820; Access Passcode: 7857618**
 - Audio Webcast Link: <https://protect2.fireeye.com/url?k=24c25ae7-789673cc-24c26bd8-0cc47a6d17cc-8b19f356735ac629&u=https://engage.vevent.com/rt/cms2/index.jsp?seid=2332>
- **Coronavirus (COVID-19) Partner Toolkit**
 - <https://www.cms.gov/outreach-education/partner-resources/coronavirus-covid-19-partner-toolkit>

Where to Access Current Guidance

- CDC has a multitude of webpages dedicated to COVID-19 and there are some that are specifically geared to LTC facilities
 - Hint: Bookmark pages frequently visited
 - Create shortcuts on your desktop
 - Sign up for email updates on CDC page
 - Schedule in calendar
- Reporting Requirements
 - Facilities are required to report their COVID-19 data to NHSN

 **Get Email Updates**

To receive email updates about COVID-19, enter your email address:

Email Address

[What's this?](#)

Surveillance

- **Purpose of Surveillance**
 - Identify trends in infections – facility acquired, or community acquired
 - Inform decisions on patient care and infection prevention and control measures
 - Infection transmission – includes observation staff infection prevention and control practices
 - Improve patient care
- **Surveillance Processes**
 - Use of standardized infection definitions-NHSN, Revised McGeer
 - Consistent process – checklist, line list, monthly reports-including root cause analysis, EHR review, rounds
 - Benchmarking – internal or external

Outcome Surveillance

COVID-19 Screen

A. Signs and Symptoms	<p>0. If no vitals taken in last 8 hours, take new vitals and enter as new (if vitals were taken and entered after note was initiated View ALL and choose current vital)</p> <p>1a. Most Recent Temperature E x Temperature: <u>100.8</u> (°F) Date: <u>8/1/2020 10:39</u> Route: <u>Oral</u></p> <p>1a2. Is there a New temperature 99.0°F or greater present? x <input type="radio"/> 0. No <input checked="" type="radio"/> 1. Yes</p> <p>2. Most Recent Pulse E x Pulse: <u>108</u> (bpm) Date: <u>8/1/2020 10:27</u> Pulse Type:</p> <p>21a. Is there new onset of tachycardia (more than 100 beats per min) present? x <input type="radio"/> 0. No <input checked="" type="radio"/> 1. Yes</p> <p>2a. Most Recent O2 sats x O2 sats: <u>96.0</u> (%) Date: <u>8/1/2020 14:50</u> Method: <u>Oxygen via Mask</u> To compare with previous O2SAT use H (history link) next to most recent O2 SATS line A_2a</p> <p>2a1. Has the O2 SAT decreased by 3 points or greater since last taken? x <input checked="" type="radio"/> 0. No <input type="radio"/> 1. Yes</p> <p>3. Most Recent Respiration E x Respiration: <u>18</u> (Breaths/min) Date: <u>8/1/2020 15:31</u></p> <p>4a. new onset indicators present (check all that apply) x</p> <ul style="list-style-type: none"> <input type="checkbox"/> 2. sore throat <input type="checkbox"/> 4. chest congestion <input type="checkbox"/> 5. cough <input type="checkbox"/> 6. or increase shortness of breath <input type="checkbox"/> 9. or worsening confusion <input type="checkbox"/> 11. Other symptoms <input type="checkbox"/> 11b. malaise and/or muscle pain <input type="checkbox"/> 11c. nausea <input type="checkbox"/> 11d. vomiting <input type="checkbox"/> 11e. diarrhea <input type="checkbox"/> 11f. Chills and/or shaking chills <input type="checkbox"/> 11g. headache <input type="checkbox"/> 11h. new loss of taste or smell <input checked="" type="checkbox"/> 11i. fever, tachycardia or O2SAT drop as indicated above <input type="checkbox"/> 12. None Present <input type="checkbox"/> 13. Patient/Resident is Asymptomatic with Positive COVID Screen Test results in the Past 24 hrs
B. Action	<p>1. The following are new onset indicators of suspected COVID-19 (if none listed below, no indicators were identified) x</p> <p>g. tachycardia x</p> <p>t. Temperature is 99.0°F or greater x</p>

Heat Map

Process Surveillance

COVID-19 Walking/Virtual Rounds for Infection Control		Genesis			
Audited by:	Date:	Shift:			
As you conduct your walking rounds complete & tally worksheet. Acknowledge excellent IP					
Strong (S) - no lapses/infractions noted - 7 care 3; Inconspicuous (IC) - 1-2 lapses/infractions noted during shift - 7 care 2; Challenge (C) - 3 or more infractions noted during shift - 7 care 1 Not Seen (N) - 0 if not seen during rounds					
Competency	S	IC	C	N	Follow up
Employee Visitor Screening	1. Employees & Visitors enter Center through only one entrance				
	2. Respiratory Hygiene/Cough Etiquette & Hand Hygiene signs are posted—Is this observed during rounding				
	3. Visitor Infection Control Instructions handout at screening location & given to visitors				
	4. All staff/visitors are screened upon entering the center				
	5. Screeners have been trained on how to perform, document & respond to "yes" responses & have screening instructions readily accessible to refer to				
	6. Adequate amount of hand sanitizer readily available				
	7. Paper bags labeled with staff names with stored PPE (per current guidance) are easily accessible				
	8. All staff perform hand hygiene and then immediately apply surgical face mask and eye protection				
Residents on Precautions	9. Rooms of residents on precautions are clearly marked with correct precautions signs: Contact & Droplet or Contact & Airborne. Patient specific contact plus airborne				
	10. Resident doors are closed patient specific and contact plus airborne - privacy curtains are pulled				
	11. Staff perform hand hygiene before & after resident care and/or contact with the resident's environment (even if gloves worn)				
	12. PPE is readily available. Ask staff where it is located and who do they contact if unavailable				
	13. Staff perform hand hygiene and PPE is donned appropriately (refer to poster)- gloves, gown, N95/KN95 respirator, face shield				
	14. PPE removed appropriately (refer to poster) and placed in clearly marked container for used gowns to be laundered. Container is covered. Staff perform hand hygiene.				
	15. If aerosol-generating procedure performed - appropriate PPE worn, door closed, limited number of staff in room and surfaces cleaned and disinfected at end of procedure, doff gown				
	16. If shared bathroom - suspected/positive resident has a commode with careliners				

- Have a tool that measures compliance with staff practices
 - Identifies focus areas
 - Monitors improvement
- Have a trained "IP Designee" on each shift with the responsibility to observe staff and provide just in time training
- Conduct virtual infection control walking rounds

SUMMARY

- Accessing CMS and CDC resources quickly
- Review of the purpose of surveillance
- Importance of Outcome and Process Surveillance in Preventing and Managing COVID outbreaks

*Thank
You!*

Meet Your Speaker

**Angela Anttila, PhD, MSN, NPC,
CIC**

Nurse Epidemiologist

Division of Healthcare Quality
Promotion

National Center for Emerging and
Zoonotic Infectious Diseases
Centers for Disease Control and
Prevention

Collecting and Submitting Data to National Healthcare Safety Network (NHSN)

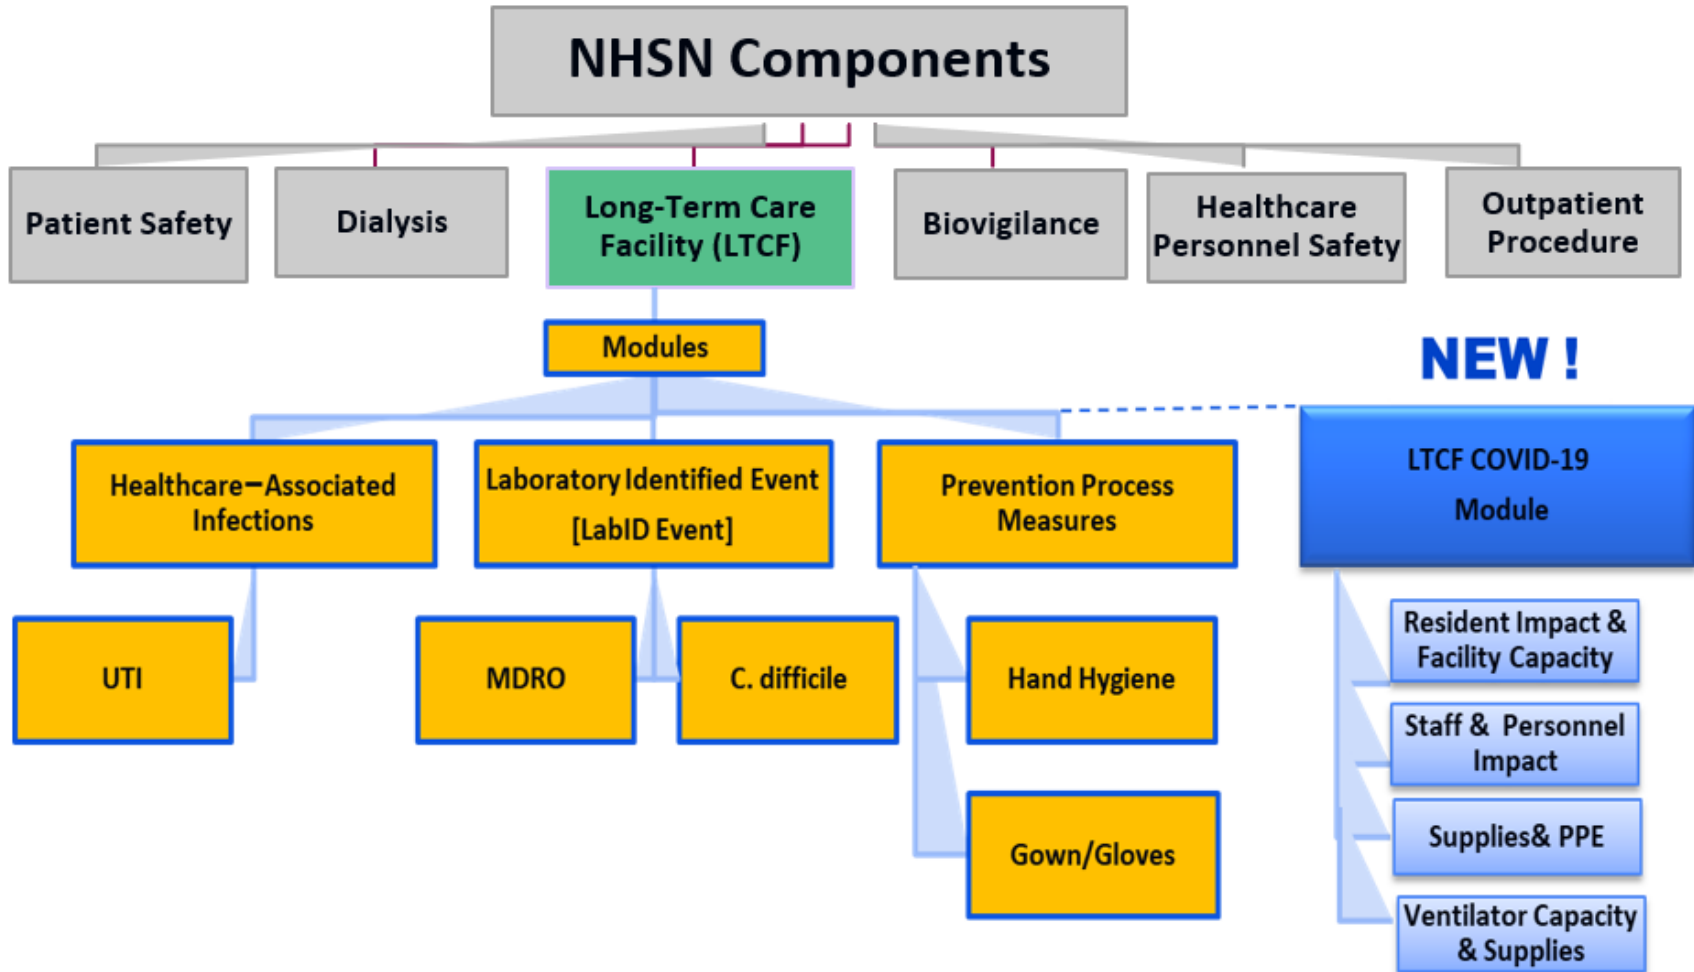

National Healthcare Safety Network (NHSN)

- Secure, internet-based surveillance system managed by the Centers for Disease Control and Prevention (CDC)
- Open to a variety of healthcare facilities in the United States
- Tool for the collection, analyses, and summarization of data on healthcare associated infections (HAIs), adverse healthcare events, antimicrobial use and resistance, adherence to prevention practices, exposures, and outcomes
- Collaborations with local and state public health agencies, and professional groups

NHSN Components

LTCF COVID-19 Module: Data Collection

Data Elements Consists of:

- New (incident) counts for reporting period
- Check-box selections
- Yes or No responses

Four Pathways for Reporting

Resident Impact and Facility Capacity

Staff and Personnel Impact

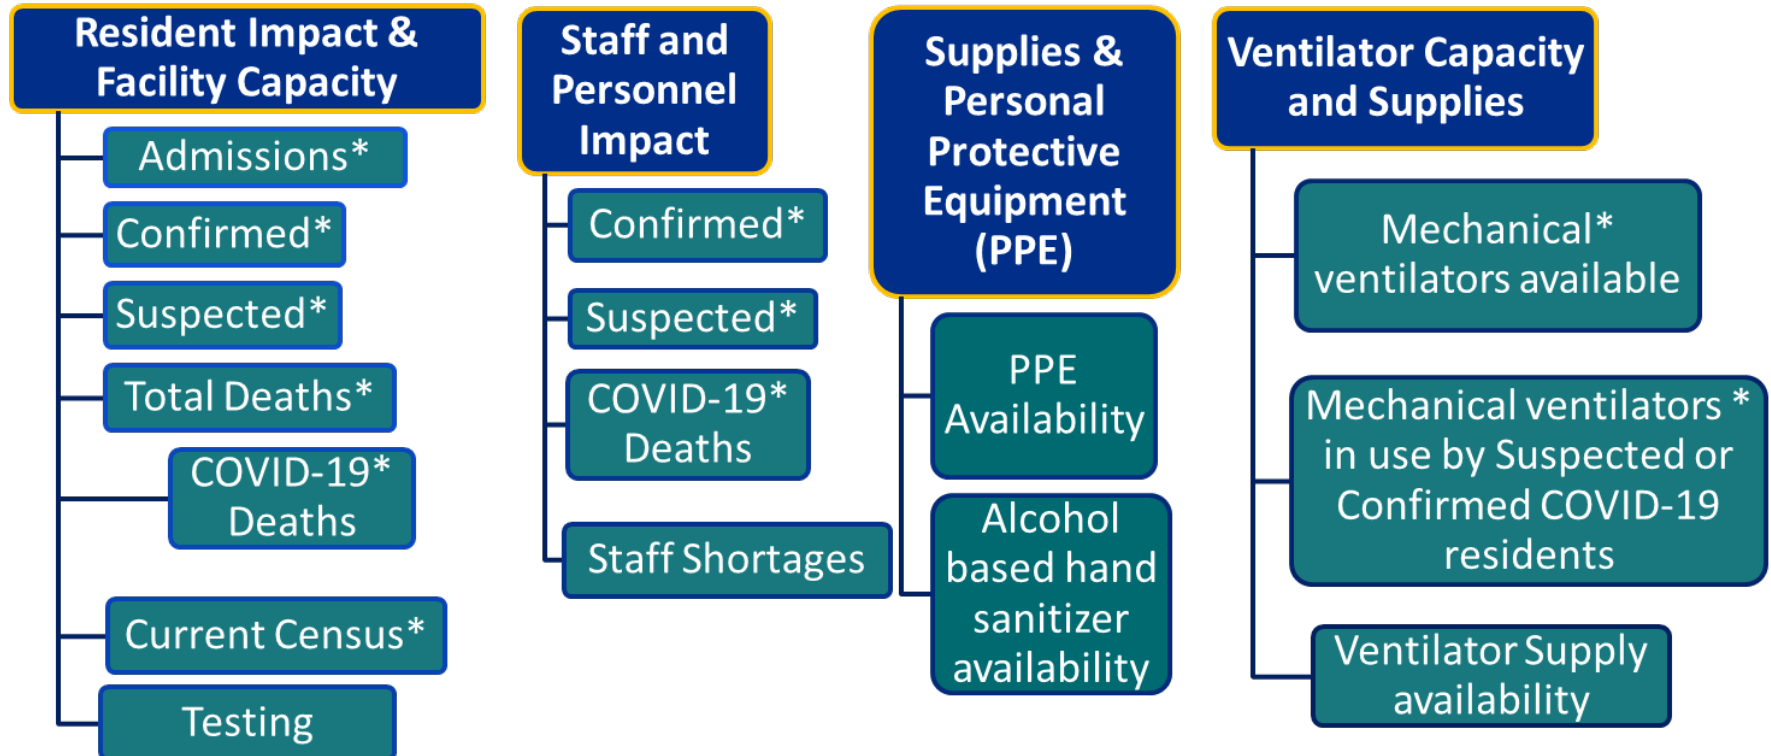

Supplies and Personal Protective Equipment

Ventilator Capacity and Supplies

COVID-19 Module: Data Collection Elements

* Counts (report NEW counts since the last date counts were collected for reporting in the Module)

Tips for collecting COVID-19 data for submission to NHSN

Consistency is a Must!

- Define reporting frequency
 - Must enter data at least once per week (7 calendar days)
 - Data must be entered even if the count is 0
 - Blank = missing/incomplete
- Define surveillance week (7 calendar days)
- Use counts from the facility line list
- Validate submitted data each week
 - NHSN transmits entered data to CMS every Monday morning

Example: Collecting COVID-19 count data to be reported to NHSN's Resident Impact and Facility Capacity Pathway

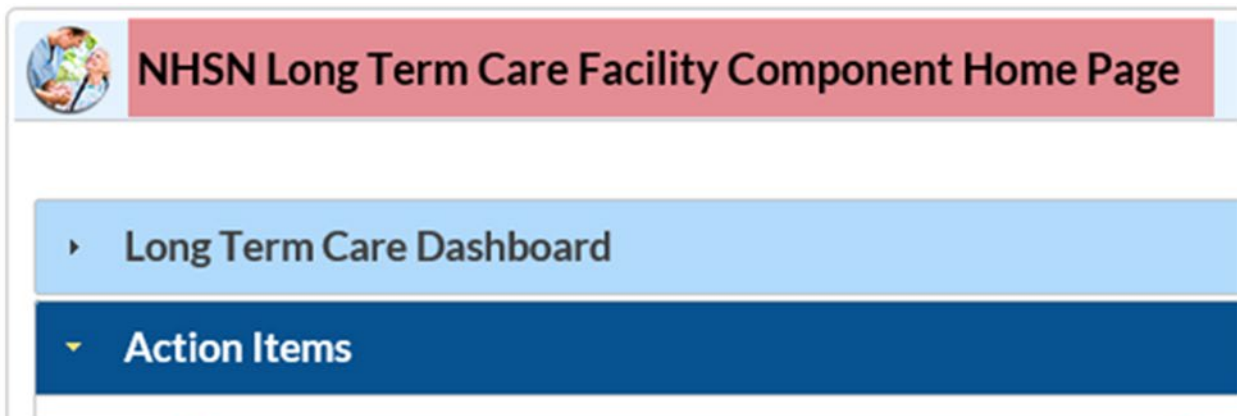

- Facility surveillance week is Thursday through Wednesday
- Reporting period for this example will be 7/2 – 7/8
- Record only NEW counts for each data element

Week (Thurs-Weds) 7/2 – 7/8	NEW ADMITS	NEW CONFIRMED	NEW SUSPECTED	NEW TOTAL DEATHS	NEW COVID-19 DEATHS	COMMENTS
Thursday 7/2	1	0	0	0	0	1 SNF resident with diagnosis of COVID-19 admitted and required transmission-based isolation. No confirmed, suspected, or deaths this day
Friday 7/3	0	3	4	0	0	Received +COVID-19 test results for 3 residents; 4 residents were put on isolation for fever and respiratory symptoms
Saturday 7/4	0	0	2	0	0	2 additional residents put on isolation for COVID-19 related symptoms;
Sunday 7/5	0	2	1	3	2	Received + COVID-19 test results for 2 resident; 1 resident developed fever, cough- put on isolation; 3 residents died today- 1 heart attack and 2 COVID-19 related complications
Monday 7/6	0	1	5	1	1	3 new admissions, but none had COVID-19 diagnosis or symptoms; received 1 COVID-19 + result; 5 new residents put on isolation for symptoms; one new death today- from COVID-19. No other deaths today
Tuesday 7/7	0	3	0	0	0	Received 3 positive COVID-19 test results
Wednesday 7/8	1	1	0	3	1	1 new admit from hospital with + diagnosis and ongoing symptoms of COVID-19- put on isolation; 1 new positive test result; 3 new deaths, only 1 related to covid-19
TOTAL FOR WEEK	2	10	12	7	4	For weekly only reporting, these new counts entered in NHSN COVID-19 Module on Thursday 7/9

Report COVID-19 Data to NHSN:

Step 1: Log-in and Select COVID-19 Module

1

STEP 1: On the NHSN Long Term Care Facility Component Home Page, select COVID-19 Tab from the left-navigation menu

Step 2: From calendar view page, either Upload CSV file or click on date in calendar to manually enter data

- **Example of weekly reporting in NHSN COVID-19 Module**
 - Facility surveillance week is Thursday-Wednesday
 - Reporting period: 7/2 – 7/8

How Reported Data Are Used

- Platform for sharing required data to the Centers for Medicare and Medicaid Services (CMS)
- Strengthen COVID-19 surveillance locally and nationally by
 - monitor trends in COVID-19 infection rates, including outbreak detection;
 - Identifying facilities experiencing shortages in staff and supplies; and
 - assist local, state, and federal health authorities to direct resources
- Characterize the national impact of COVID-19 among residents and staff in nursing homes
- Informs ongoing activities to support providers

SUMMARY

- Visit the NHSN LTCF COVID-19 Module Web-page for access to resources
<https://www.cdc.gov/nhsn/ltc/covid19/index.html>
- Questions about NHSN and reporting should be sent to NHSN@cdc.gov
- To expedite questions sent to NHSN, include “LTCF” and topic in the Subject line of e-mail.
 - Example: LTCF- add new user
 - Example: LTCF – COVID-19 Module question
 - Example: LTCF- data

*Thank
You!*

Use Available Resources

- Local and state health departments
- Quality Improvement Organizations and Networks
- Collaborate and share data collection tools and resources

Clarification – Scenario Based Training

Trump Administration Announces New Resources to Protect Nursing Home Residents Against COVID-19

July 22, 2020 CMS Press Release

Additional Technical Assistance & Support

- CMS, in partnership with the CDC, is rolling out an online, self-paced, on-demand Nursing Home COVID-19 Training focused on infection control and best practices.
- The training being offered has 23 educational modules and a scenario-based learning modules.
- The training is a requirement for nursing homes to receive the additional funding from the Provider Relief Fund (PRF) Program.
- **CLARIFICATION: Only the scenario-based learning module is tied to the PRF, not the 23 educational topics that are presented on a weekly basis. The module has not launched yet.**
