# "Excel"erate Your Coding in 2023

Coding is forever evolving like healthcare itself. Keeping up with changes can sometimes feel like a never-ending job on its own. This webinar series will focus on the nitty gritty of a few high-profile diagnoses as well as a few that fly inconspicuously under the radar. Regardless how the diagnosis presents itself, correctly coding them can have lasting impact on patients and the care they receive. Participants will have the opportunity to learn how to break down the coding quidelines for each diagnosis, review typical clinical indicators and discuss how documentation brings it all together.

#### Each session is from 1 - 2 PM (CT)

FEBRUARY 9 Validating Sepsis Doesn't Have to be Scary!

MARCH 9 Social Determinants of Health: Reporting + Documentation

**APRIL 13** Documentation for Pressure Ulcers, Arterial, Venous + Pressure

> MAY 11 Unraveling Diabetes Coding in ICD-10-CM

**JUNE 8** Adverse Events + Poisonings

1.0 nursing contact hours will be awarded for each session by the lowa Hospital Association, Iowa Board of Nursing Provider No. 4. lowa nursing contact hours will not be issued unless your lowa license number was provided at registration. For nursing contact hours to be offered, you must log in individually, your webinar sign-in and sign-out times will be verified. Partial credit will not be granted. Attendees outside lowa should check with their state Board of Nursing for nursing continuing education requirements.
