#### Active Shooter Emergency Preparedness Planning: Nursing Homes

Mike Bittner, Quality Improvement Advisor July 25, 2023

Empowering patients, families and caregivers to achieve health care quality improvement

## **Objectives**

- Describe the components of a successful Active Shooter Plan.
- Identify considerations for active shooter preparedness in nursing homes.
- Identify resources to develop a robust Active Shooter Plan.

## Introduction

## **Active Shooter Incident**

- When one or more people actively engage in killing or attempting to kill people in a confined and populated area
- There is no pattern or method to their selection of victims.
- These situations are unpredictable and evolve quickly.
- Incorporating an active shooter incident plan must now be part of every health care facility's agenda and emergency management plan.

## Data

- From 2000 to 2011 there were 154 hospital-related shootings.
- Multiple people can be shot within a few minutes.
- Most active shooter events are preplanned.

## **Active Shooter Characteristics**

- Typically, active shooters may hold a grudge or have been terminated or treated harshly in the workplace.
- When a shooting incident occurs in a health care facility, it may be a spontaneous event or something that has been preplanned.

#### **Planning for an Active Shooter Incident**

## **Develop an Effective Emergency Action Plan**

- Apply an All-Hazards risk approach.
- Identify internal and external risks that can be mitigated.
- Ensure all staff, residents, resident representatives and local law enforcement are familiar with the plan.

## **Components of an Effective Plan**

- Risk Assessment/Vulnerability Assessment.
- Preferred method of reporting emergencies.
- Evacuation policy and procedure.
- Escape procedures and route assignments.
- Contact information for staff and residents.
- Emergency communication system to alert staff and local agencies.

## **Meet Everyone's Needs**

Ensure active shooter plans address and provide for functional needs:

- Hearing and vision.
- Mobility.
- Limited or no English proficiency.

## **Lockdown Procedures**

- The lockdown procedure needs to be easy to implement.
- All staff, residents and resident representatives need to be familiar the process.
- Multiple staff members should be able to initiate a lockdown.

Quality Improvement

#### **Awareness**

- Ensure all staff and residents are aware of the Active Shooter plan.
- Conduct annual training.
- Review and update annually or as needed.

#### **Training Considerations**

## **Training to Prepare for an Active Shooter Event**

- Train employees to react quickly and appropriately in an active shooter situation.
- Train employees to decide rapidly what the safest course of action is based on the scenario that is unfolding.

# **Training Objectives**

Training should include:

- Identifying the sound of gunfire.
- Responding quickly RUN HIDE FIGHT.
- Awareness of evacuation procedures/routes.
- Calling 911.
- Reacting when law enforcement arrives.
- Adopting a survival mindset.
- Involving external community organizations in training activities.

SUPERIOR HEALTH

**Ouality Alliance** 

## Run

- Have an escape plan in mind.
- Leave belongings behind.
- Help others, if possible.
- Evacuate, regardless of others.
- Prevent individuals from entering the facility.
- Do not move wounded people.
- Keep hands visible.
- Follow law enforcement instructions.

The hiding spot should:

- Be out of the active shooter's view.
- Provide protection if shots are fired.
- Not restrict options for movement.

## **Stay Safe While Hiding**

If the shooter is nearby:

- Lock the door if possible.
- Use items to create a barricade.
- Hide behind large item (e.g., cabinet, desk)
- Silence cell phone/pager.
- Remain quiet.

As an absolute last resort:

- Behave as aggressively as possible.
- Throw items and use improvised weapons.
- Work together to incapacitate the shooter
- Commit to your actions.

## Law Enforcement's Role

Immediate purpose:

- Stop the active shooter.
- Proceed to area where last shots heard.
- First priority is to eliminate the threat.

Quality Improvement Organizat

## **Communicating to Law Enforcement and 911**

Provide the following information:

- Location of the shooter.
- Number of shooters.
- Physical description of shooter(s).
- Number and types of weapons.
- Number of potential victims.

## **Responding to Law Enforcement Officials**

- Remain calm.
- Put down any items you might be holding.
- Raise hands and spread fingers.
- Avoid quick movements.
- Avoid pointing, screaming or yelling.
- Proceed in direction from which officers are entering.

## **Involve Outside Agencies in Training Activities**

- Include the involvement of outside agencies, (such as, local law enforcement, emergency medical services [EMS] and fire department).
- Invite local law enforcement to tour your facility, offer recommendations to mitigate an active shooter event, and meet your staff and residents.

## **Management Responsibilities**

- Institute facility access controls lock doors.
- Distribute critical items radios, keys.
- Assemble crisis kits with medical supplies.
- Activate emergency notification system (consider what happens after hours).
- Clearly designated and post two evacuation routes.
- Post removable floor plans near entrances/exits.
- Be aware of workplace violence indicators.

#### **Post Active Shooter Recovery**

## **Follow-Up Post Active Shooter Incident**

- Manage consequences.
- Summarize lessons learned and improvement opportunities.

## Managing the Consequences

- Determine who is missing or injured.
- Determine a method for notifying family members or resident representatives.
- Assess and support the psychological needs of staff and residents.
- Reach out to community agencies or organizations that may be able to provide assistance.
- Identify and fill critical personnel or operational gaps.
- Determine how to handle public relations and communications to public media.

## **Lessons Learned**

- Document response activities.
- Identify successes and failures.
- Provide analysis of existing plan effectiveness.
- Document plans for improvements.
- Communicate updates to staff, residents, families and local agencies.
- Share what was learned with other organizations in the community.
