NEW CENTER

Home Health Quality Improvement (HHQI)

This CMS initiative has been dedicated to improving the quality of care provided to American's home health patients.

Medication Management and Opioid Initiative (MMO)

In alignment with national action towards improving medication management and opioid misuse, CMS is focused on patients and improving their health outcomes, reducing unnecessary utilization, and generating cost savings for public and private payers.

BLURB ABOUT INITIATIVES
Following are some of the campaigns and initiatives in which the QIO Program’s Quality Innovation Network-Quality Improvement Organizations (QIN-QIOs) are involved:

QIN-QIOS

The QIO Program is involved in a variety of campaigns and initiatives that are closely tied to its clinical priorities. Many of these are fully or partly run by the Centers for Medicare & Medicaid Services (CMS).

Following are some of the campaigns and initiatives in which the QIO Program’s Quality Innovation Network-Quality Improvement Organizations (QIN-QIOs) are involved:

HQIC

The QIO Program is involved in a variety of campaigns and initiatives that are closely tied to its clinical priorities. Many of these are fully or partly run by the Centers for Medicare & Medicaid Services (CMS).
